Education

Motilal Nehru National Institute of Technology Allahabad, Prayagraj *2022 - Present*
B.Tech. in Computer Science And Engineering CPI: 7.16/10.0 (till 7th Semester)

Arniko Awasiya Higher Secondary School *2021*
National Examination Board GPA: 3.5/4.0

Mother Teresa Memorial Secondary School *2019*
National Examination Board GPA: 3.4/4.0

Projects

PRANAAM *Jan 2025 - March 2025*
Full-stack social media app with secure auth, post features, and mobile-first UI.

- Tech Stack: React.js, TypeScript, Appwrite (BaaS), React Query (TanStack), Shadcn UI, Tailwind CSS
- Built a full-stack social media app with responsive and mobile-first UI.
- Integrated secure authentication and user profile management using Appwrite.
- Enabled post creation, editing, liking, saving, and user browsing features.
- Used React Query for optimized data fetching, caching, and mutations.
- Github Link

Neelyatra *March 2025 - july 2026*
AI-powered travel booking platform with admin dashboard and responsive design.

- Tech Stack: React 19, Syncfusion, Appwrite, React Router v7, Tailwind CSS, Vite
- Developed a modern travel booking platform with an AI-powered trip itinerary generator.
- Integrated secure authentication and backend services using Appwrite.
- Built an admin dashboard for trip/user management with real-time analytics.
- Implemented trip booking on a public-facing site with detailed trip overviews.
- Github Link

UAV Telemetry Anomaly Detection System *Nov 2025 - Jan 2026*
Unsupervised ML system for detecting anomalies in UAV flight telemetry data.

- Tech Stack: Python | Machine Learning | Streamlit
- Built an end-to-end anomaly detection pipeline on UAV GPS, altitude, and IMU data.
- Applied unsupervised learning (Isolation Forest) to identify abnormal flight behavior.
- Performed feature preprocessing and scaling with reusable trained model artifacts.
- Developed an interactive Streamlit dashboard to visualize flight paths and anomalies.
- Github Link

Technical Skills and Interests

Languages: C, C++, Java, Python, JavaScript, TypeScript
Developer Tools: Git and GitHub, Shadcn, Tailwind CSS, Postman
Soft Skills: Problem-solving, Leadership, Communication, Presentation, Teamwork
Areas of Interest: Data Structures and Algorithms, Artificial Intelligence, Machine Learning
Coursework: Data Structure, Analysis of Algorithm, Object Oriented Programming, Operating System, Database Management, Computer Network, Machine Learning, Distributed System

Achievements

- Solved 600+ problems on LeetCode, Coding Ninjas and GFG combined

Coding Platforms

LeetCode : shatis05

Coding Ninjas : Shatis

Positions of Responsibility

Member, Anokhi Pehel
- Taught underprivileged children through student initiative.

Member, Nepathya
- Participated in cultural fest Culrav 2023
